✔ **Easy to** assemble and hang using 4 hanging points

The BEST value for MONEY

Specifications

MAX POWER - 680W
Operates with a 680W LED driver from NŌKOTECH or most third-party 600-680W HPS ballasts.

PPE - 2.8 μmol/J
With 2.8 μmol/J efficacy, this fixture is ideal for reducing electricity costs and achieving top results.

PPF - 1896 μmol/s
Powerful PPF output provides sufficient PAR light, making it ideal for indoor growers of any scale.

REMOTE CONTROL
Using RJ cables (included) and any 0-10V controller, up to 50 fixtures can be connected in one chain.
