

Simplex MAXI-FIT

240W LED grow light

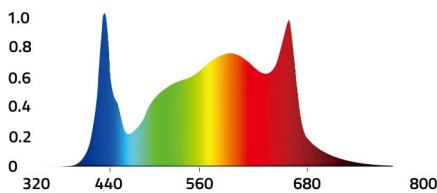

nōKOTECH

NEXT GENERATION

SIZE: 500 x 500 mm

Tailored full-spectrum

SIMPLEX MAXI-FIT fixture uses high-quality **San'an** and **Osram** LEDs to create a tailored full-spectrum light for photosynthesis in all growth stages.

Why choose **SIMPLEX MAXI-FIT**?

- ✓ **High efficacy:** outstanding results for small spaces
- ✓ **Ultra-light:** only **1.7KG** with NÖKOTECH LED driver
- ✓ **Small size:** 500 x 500 mm, fits everywhere

The BEST value for MONEY

Specifications

MAX POWER - 240W

With 240W of power, this compact light delivers efficient performance for small-scale indoor growing operations.

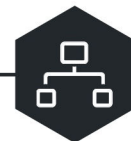

PPE - 2.8 $\mu\text{mol}/\text{J}$

With 2.8 $\mu\text{mol}/\text{J}$ efficacy, this fixture is ideal for reducing electricity costs and achieving top results.

PPF - 668 $\mu\text{mol}/\text{s}$

This compact size light provides enough PAR light for small-scale indoor growers, maximizing efficiency and yield.

REMOTE CONTROL

Even though it's designed for small growing operations, it has an advanced feature of being daisy-chained to a 0-10V controller.
