

Simplex PRO-FIT

680W LED grow light

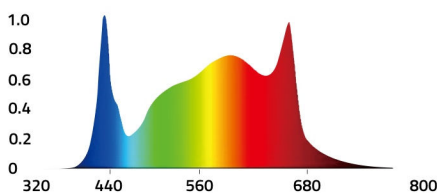

NÖKOTECH

NEXT GENERATION

SIZE: 950 x 950 mm

Tailored full-spectrum

SIMPLEX PRO-FIT fixture uses high-quality **San'an** and **Osram** LEDs to create a tailored full-spectrum light for photosynthesis in all growth stages.

Why choose SIMPLEX PRO-FIT?

- ✓ **Dual-purpose:** works with **HPS ballast** and **LED driver**
- ✓ **Ultra-light:** only **6.5KG** with NÖKOTECH LED driver
- ✓ **Compact size:** 950 x 950 mm, fits where others don't

The BEST value for MONEY

Specifications

MAX POWER - 680W

Operates with a 680W LED driver from NÖKOTECH or most third-party 600-680W HPS ballasts.

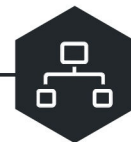

PPE - 2.8 $\mu\text{mol}/\text{J}$

With 2.8 $\mu\text{mol}/\text{J}$ efficacy, this fixture is ideal for reducing electricity costs and achieving top results.

PPF - 1896 $\mu\text{mol}/\text{s}$

Powerful PPF output provides sufficient PAR light, making it ideal for indoor growers of any scale.

REMOTE CONTROL

Using RJ cables (included) and any 0-10V controller, up to 50 fixtures can be connected in one chain.
