

UNDERCOVER 150

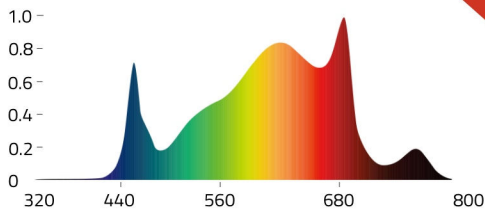

2 x 150W LED grow lights

nōKOTECH

UNDER-CANOPY LED

Tailored full-spectrum

UNDERCOVER 150 fixture uses high-quality **San'an** and **Osram** LEDs to create a tailored full-spectrum light with added Far red.

Why choose UNDERCOVER 150?

- ✓ **Optimal coverage:** comes with two lights per box
- ✓ **Superior results:** tailored full-spectrum with far red
- ✓ **Easy integration:** supports all 0-10V controllers

The BEST value for MONEY

Specifications

MAX POWER - 300W

Two 150W lights with one LED driver provide optimal 100x100 cm coverage for higher yield quality and quantity.

PPE - 2.8 $\mu\text{mol}/\text{J}$

With high efficacy, this fixture ensures top-level results are delivered efficiently, significantly reducing electricity costs.

PPF - 836 $\mu\text{mol}/\text{s}$

This under-canopy light provides enough PAR with extra far red light for significantly improving yields.

REMOTE CONTROL

For more convenient growing operation management, it has a feature of being daisy-chained to a 0-10V controller.
